ABOUT US

Eleos PLC is a multidisciplinary consulting company based in Addis Ababa, Ethiopia, dedicated to delivering smart, sustainable, and scalable solutions across Africa. Our core services span **Information Technology, Software Development & Supply, Cybersecurity, Mining Consulting, Urban & Rural Planning, and Green Energy Solutions.**

Founded by **Daniel Tesfaye**, Eleos PLC is built on a strong vision: to empower Africa through innovation, digital transformation, and community-driven development. Our team includes experts with decades of regional and international experience, such as **Dr. Gilbert Nkurunziza**, a PhD-level technologist and operations strategist.

OUR SERVICES

1. IT Solutions

We offer network design, cloud integration, remote support, and data security solutions tailored for African businesses, NGOs, and institutions.

2. Software Development & Supply

We develop custom software, ERPs, mobile apps, and industry-specific platforms, using modern, scalable technologies.

3. Cybersecurity Services

We protect businesses from digital threats through endpoint protection, penetration testing, cybersecurity training, and compliance consulting.

4. Mining Consulting

We digitize and modernize mining operations with remote monitoring systems, GPS tracking, smart surveillance, and communication tools.

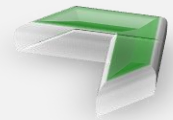

5. Urban & Rural Planning

We provide GIS-based land use planning, infrastructure design, and smart city development strategies that support inclusive, sustainable growth.

6. Green Energy Solutions

We design and implement solar, hybrid, and off-grid systems to power rural communities, reduce emissions, and improve energy access.

OUR MISSION

To provide forward-thinking, technology-driven consulting services that solve local challenges and deliver long-term value across Africa.

OUR VISION

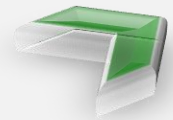

To become Africa's most trusted consulting partner in building digitally connected, environmentally sustainable, and economically empowered communities.

CORE VALUES

- **Innovation** – We lead with forward-thinking solutions.
- **Integrity** – We deliver with honesty and transparency.
- **Impact** – We focus on results that matter to people.
- **Inclusion** – We build solutions that work for all.
- **Sustainability** – We prioritize long-term development and green energy.
